PoE Splitter Series

User Manual

Model : IP05SE

15W POE Splitter

Introduction

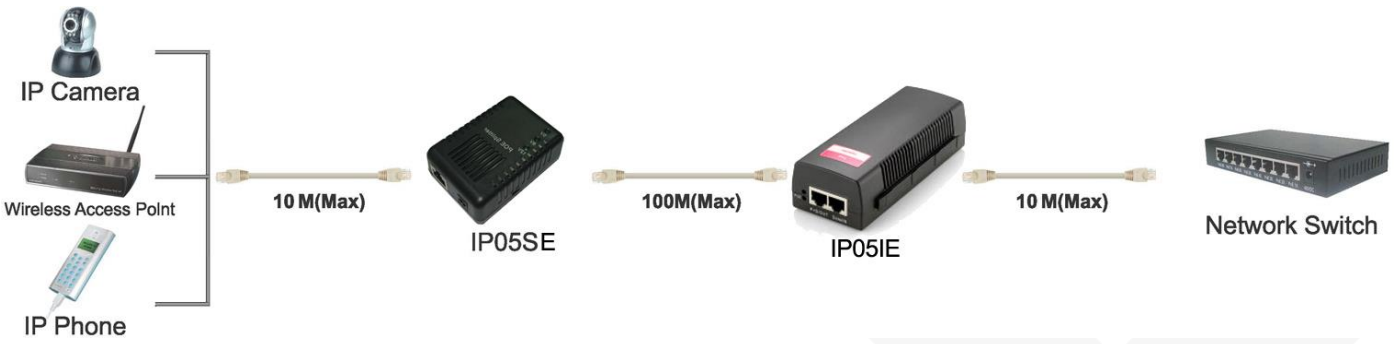

IP05SE is a PoE splitter designed to separate PoE signal into IP signal and power for a remote non-PoE device...

Features

- Splits a PoE signal into IP one and power.
- Network bandwidth up to 100Mbps.
- Support up to 10 watts power.
- Built-in DIP switch to select 5V, 9V, or 12VDC output...

.

Installation View

RJ45 Pin definition	Pin
Data	1,2,3,6
Power	1/2(+), 3/6 (–) or 4/5(+),7/8(-)

Package

Jumper Cable:
DC 5.5*2.5*12 mm (White) / 5.5*2.1*12 mm (Blue) / 4.8*1.7*12 mm (Yellow）/3.5*1.3*12(Red)mm, (Length: 150mm)
PoE Splitter IP05SE *1

Specification

ITEM NO.	IP05SE
Support	
Compliance	IEEE 802.3af
Transmission Distance	100M
Max Network Bandwidth	100Mbps
Ports & Interfaces	
PoE Input	1 x RJ45
Data Output	1 x RJ45
Power Output	1 x DC Jack
Power	
Output Power Voltage	5 VDC(2A)/ 9V DC(1.1A)/ 12 VDC(0.85A)
PoE Port Power	48VDC/0.3A
Ambient Temperature	
Operation	0 to 40℃
Storage	0 to 65℃
Humidity	Up to 95%
Physical Characteristics	
Dimensions	80 x 55 x 31mm
Weight	76g
